Experience

ePayco/ Semi-senior Front End Developer
JULY 2024 - PRESENT, ANTIOQUIA, COLOMBIA (Remote)

- Led front-end development initiatives for a leading Latin American payment gateway, focusing on merchant solutions and payment processing interfaces

Key Achievements:

- Spearheaded the migration from class components to functional components with hooks, resulting in a reduction in codebase size
- Implemented TypeScript across critical payment flows, reducing runtime errors
- Optimized application performance through efficient state management using Zustand and React Query

Technical Contributions:

- Developed reusable component libraries with Storybook, improving team development velocity
- Implemented complex form validations using React Hook Form for payment and merchant onboarding processes
- Created responsive layouts using Tailwind CSS, ensuring consistent user experience across devices
- Built efficient data fetching patterns with React Query, improving application performance

Leadership & Collaboration:

- Collaborated with UI/UX teams to implement pixel-perfect designs
- Participated in agile ceremonies and contributed to technical planning
- Worked closely with backend teams to design and implement RESTful API integrations

ePayco/ Jr. Front End Developer
DECEMBER 2021 - JULY 2024, ANTIOQUIA, COLOMBIA (Remote)

- Collaborated with multidisciplinary teams, including web designers, back end developers, and UX designers to conceptualize, develop, and enhance web products, ensuring seamless user experiences.
- Spearheaded front-end development projects, leveraging expertise in React, Next.js, and Tailwind CSS to collaborate seamlessly with cross-functional teams, resulting in the creation, testing, and enhancement of web products.
- Developed and maintained reusable code components, optimizing efficiency and reducing future project timelines.
- Actively contributed to the company's codebase, ensuring alignment with business objectives.

INTERFELL/ Front End Developer
DECEMBER 2021 - PRESENT, MARACAIBO, ZULIA (Remote)

- Translated design wireframes into functional web elements utilizing
- React, honing skills in HTML, CSS, and JavaScript.
- Assisted in the alignment of designs with client requirements,
- contributing to the creation of client-centric web applications, while actively promoting a positive and professional team environment.
